

Sun & Shade

The light in the shade

Description

Keep your cool both in the shade and in the sun with Landscaper Pro® Sun & Shade. No longer will you need separate seeds for your open and shaded areas. Ensure deep rooting, together with a strong and luscious sward, with this specially formulated grass seed mixture. Its proportion of red fescue means your lawn will be made up of leaves that are as fine-shaped as they are attractive.

Benefits

- \\ Reduced nitrogen for less maintenance
- \\ Equally tolerant to drought and shade
- \\ Excellent tread, shade, and bright sunlight tolerance

How to use

- 1 Recommended mowing height: from 20-25 mm.
- 2 Recommended fertilizer type: all granules.
- 3 If you need more information, please contact your technical support.

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
