Balanced

 A balanced choice for the best of both worlds

18 | 0 | 18 | 7 | 3.0 |
N | P₂O₅ | K₂O | CaO | MgO

TE

Description

The name says it all: this is the perfect balance of nitrogen and potassium for even, steady growth, plus added magnesium and iron to mask any signs of stress and give a boost to your turf's color. It also balances compound granule fertilizer with controlled release, lasting 2 – 3 months. It's partly uncoated so your turf will respond immediately. Features our patented Poly-S and PACE coating technologies. Perfect in spring and summer to bring the best out of your grass.

Guaranteed analysis

Oxide

N	Total Nitrogen	18%
	Urea nitrogen (N-Urea)	18%
P ₂ O ₅	Phosphorus Pentoxide	0%
K ₂ O	Potassium Oxide	18%

	Water Soluble (K_2O)	18%
CaO	Calcium Oxide	7%
	Water soluble (CaO)	7%
MgO	Magnesium Oxide	3%
Fe	Iron	0.6%
	Water soluble (Fe)	0.15%

Benefits

- Partial coating, for immediate effect and sustained release too
- Nitrogen and potassium, plus iron and magnesium
- Better color, steady growth, and minimized stress symptoms

Application rates

Recommended Rate: 20 – 30 g/m²

Trial first on a small scale before changing the rate, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

How to use

- 1 Apply to dry foliage.
- 2 Watering-in after application will help with granule dispersion, give a quicker initial effect, and minimize footprint trails.
- 3 We recommend applying after aeration programs such as hollow tinning, slitting, and/or scarification to prevent granule damage.
- 4 Do not apply during frosty or drought conditions.

5

If spilled on pavement, concrete, clothes, etc. brush off immediately as it can stain. Contains iron: do not apply in case of risk of contact with concrete, marble, stone, fabric, or swimming pools.

6

If you need more information, please contact your technical support.

Recommended period of use

J	F	M	A	M	J	J	A	S	O	N	D

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
