## Renovator

 Help new turf settle in beautifully

23

N

24

P<sub>2</sub>O<sub>5</sub>

5

K<sub>2</sub>O

### Description

If you're laying new turf or overseeding, Renovator will make a world of difference: your grass will be quick to establish and form a lovely dense surface. Plenty of phosphate ensures roots become strong, and a slow release is just what young grass needs, so it doesn't get burned. Renovator combines controlled release with compound granules: it's partly uncoated so your new grass will reap the benefits immediately. Features our special patented Poly-S and PACE coating technologies.

### Guaranteed analysis

#### Oxide

N	Total Nitrogen	23%
	Nitrate nitrogen (N-NO <sub>3</sub> )	0.7%
	Ammoniacal nitrogen (N-NH <sub>4</sub> )	6.2%
	Urea nitrogen (N-Urea)	16.1%
P <sub>2</sub> O <sub>5</sub>	Phosphorus Pentoxide	24%

Water soluble ( $P_2O_5$ )

## Benefits

- Perfect for new turf or overseeding
- Rich in phosphor for strong roots, and nitrogen for even growth
- Controlled release means new grass won't scorch

## Application rates

Recommended Rate: 20 – 30 g/m<sup>2</sup>

Trial first on a small scale before changing the rate, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

## How to use

- 1 Apply to dry foliage.
- 2 Watering-in after application will help with granule dispersion, give a quicker initial effect, and minimize footprint trails.
- 3 We recommend applying after aeration programs such as hollow tinning, slitting, and/or scarification to prevent granule damage.
- 4 Do not apply during frosty or drought conditions.
- 5 If spilled on pavement, concrete, clothes, etc. brush off immediately as it can stain. Contains iron: do not apply in case of risk of contact with concrete, marble, stone, fabric, or swimming pools.
- 6 If you need more information, please contact your technical support.

Recommended period of use
