	Zinc EDTA (Zn)	0.015%

## Description

Help your plants combat dull and low-temperature weather conditions with Peters® Professional Winter Grow Special Low B. No longer will the winter months stop you from making your crops flourish. With its unique boron-free formula, it is your perfect solution for any boron-sensitive crops, such as palmaceous plants, or if your irrigation water is already abundant with boron.

## Benefits

- \\ The unique M-77 chelating formula
- \\ Developed for potted plants, bedding plants, container nursery stock, and other peat-based cultures
- \\ Made from a pure formulation with no added ballast substances

## Characteristics

## How to use

- 1 You should prepare solution 1-2 hours in advance by stirring well or applying warm water.
- 2 This will cause the product to dissolve completely before use.
- 3 Do not mix with Peters Excel.
- 4 Close partly used or damaged bags securely.
- 5 Store under dry conditions.
- 6 If you need more information, please contact your technical support.

## Application rates

---

Continuous feeding 0.5 – 1.5 g/liter

---

Occasional feeding (for example, once a week) 0.8 – 2 g/liter

Attention Trial first on a small scale before changing the rate, application or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL Specialty Fertilizers cannot be held responsible for any adverse results.
