Description

Osmocote® Exact Mini 3-4 M contains finer granules, ideal for application in pots with small volumes. It's easy to apply through mixing or topdressing after the roots have developed. Specially developed for small substrate volumes from 20 ml, making it perfect for pots smaller than 8 cm in diameter, such as plugs and trays with small compartments. 100% coated & 100% safe for plants. Get maximum results with Osmocote® Exact Mini 3-4 M.

Attention

The recommended rates above are based on unfertilized substrates. Adjust the pH level according to crop requirements. These are general recommendations. Adjust for specific situations, such as use in tunnels or greenhouses, or specific climate conditions. Not recommended for dibbling and/or autumn/winter pottings. Contact your ICL Specialty Fertilizers advisor for more detailed advice. Trial first on a small scale before changing the rate, application or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.
