## Description

When it comes to fighting off your turf's winter blues, look no further than Sierrablen® Plus Stress Control 4-5M. Treat your turfgrass to a controlled 4-5 month nutrient release thanks to ICL's patented Poly-S and PACE technologies. With its nitrogen only released under optimum growing conditions, you will be pre-stress conditioning your turf for the harsher conditions ahead. Promote strong, healthy-looking plants with lush green swards from spring onwards thanks to added levels of potassium and magnesium.

## How to use

- 1 Apply directly to dry foliage.
- 2 Watering-in after application helps dispersion and boosts immediate effect. Do not apply during drought or frosty conditions.
- 3 You should apply following completion of aeration programs, including scarification, slitting and/or hollow tining to prevent damage to the granules.
- 4 If you need more information, please contact your technical support.
