

## Sportsmaster<sup>®</sup> Base

### Cal K Mag

Four macronutrients in one granule

0 | 0 | 14 | 17 | 6.0  
N   P<sub>2</sub>O<sub>5</sub>   K<sub>2</sub>O   CaO   MgO

## Guaranteed analysis

Oxide		
N	Total Nitrogen	0%
P <sub>2</sub> O <sub>5</sub>	Phosphorus Pentoxide	0%
K <sub>2</sub> O	Potassium Oxide	14%
	Water Soluble (K <sub>2</sub> O)	14.0%
CaO	Calcium Oxide	17%
	Water soluble (CaO)	17%
MgO	Magnesium Oxide	6.0%
	Water soluble (MgO)	6.0%

## Description

Sportsmaster Base Cal K Mag multi-nutrient compound fertilizer. Ideal for pre-stress conditioning before autumn or winter, each granule is packed with macro-nutrients for all-round, healthy growth. With this fertilizer, you can enhance your turf's carbohydrate storage thanks to its increased levels of potassium, while its high levels of calcium and magnesium allow you to develop strong, lush green swards.

## Benefits

- \\ High potassium for optimized carbohydrate storage
- \\ High calcium for stronger plants
- \\ High magnesium for enhanced color response

## How to use

- 1 Apply to dry foliage, then irrigate after 1-2 days if it has not rained.
- 2 You can irrigate to improve aid dispersion and reduce any risk of mower pick-up when treating close-mown surfaces.
- 3 Do not apply in drought or frosty conditions.
- 4 To allow the granules to properly disperse, do not verti-cut and/or groom until 3 days after application.
- 5 Properly seal partly used or damaged bags.
- 6 Store under dry conditions.
- 7 If you need more information, please contact your technical support.

## Recommended period of use

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NNOV	DEC

## Application rates

### Recommended Rate:

35.00-50.00 g/m<sup>2</sup>

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

## Attention
