Guaranteed analysis

Oxide		
N	Total Nitrogen	14%
	Ammoniacal nitrogen (N-NH4)	10.9%
	Urea nitrogen (N-Urea)	3.1%
P2O5	Phosphorus Pentoxide	0%
K2O	Potassium Oxide	5%
	Water Soluble (K2O)	5.0%
Fe	Iron	6.00%

Description

Keep your turf looking pretty as a picture with Renovator Pro: control broad-leaved weeds such as daisies, white clover, cat's ear, and creeping buttercup, while also giving your turf the nutrients it needs, for up to 6 weeks. Nitrogen and potassium will improve its quality, color, and growth. Also contains iron to help control moss. Can also help with keeping dandelions and plantains at bay. You'll have no problem distributing these mini granules evenly, so there's no risk of ugly speckling. Phosphate-free. Perfect for use in spring and summer on any lawn, sports field, tee, or fairway.

Benefits

- \\ Selective herbicide controls broad-leaved weeds in spring and summer
- \\ Nitrogen, potassium, and iron for healthy turf
- \\ Easy-to-use, effective micro-granules

Application rates

Recommended Rate	35 g/m ²
------------------	---------------------

Trail first on a small scale before changing the rate, or any other variables, As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.
