#### Description

Greenmaster® Pro-Lite Invigorator has been specially designed to keep your turf healthy throughout the main growing season. It contains low nitrogen and high potassium to harden your turf. Keeps moss at bay, while invigorating the sward, helping it to recover from any mechanical damage. Ideal for the first granular fertilizer application of the season. Effects last up to 6 weeks.

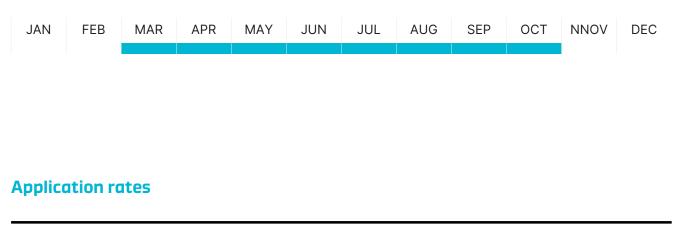

#### Benefits

- 👠 Low nitrogen and high potassium to help harden turf
- ▲ Controls moss while strengthening sward
- $\mathbf{M}$  Improves the health and appearance of fine turf

How to use
Apply to dry foliage from March to October.
Contains iron.
Do not apply in case of risk of contact with concrete, marble, stone, fabric, swimming pools, etc.
If spilt on these areas, brush off immediately as the product can cause discoloration.
If you need more information, please contact your technical support.

#### **Recommended period of use**
