	Water Soluble (K2O)	5.0%
Fe	Iron	0.50%

Description

Get the season wrapped-up early with Sierrablen® 27-5-5-Fe's winning formula. From one single application per year, you can provide your turf with a sustained NPK nutrient release over an 8-9 month period, made possible using ICL's patented Poly-S and PACE coating technologies. As the nitrogen is only released under optimum growing conditions, you can ensure strong and healthy turf that can stand up to the harshest of conditions all year round.

Benefits

- \\ One single yearly application for an 8-9 month nutrient release
- \\ Perfect for pre-stress conditioning of turf
- \\ Quick-release nitrogen and added iron for immediate visible response

How to use

- 1 Apply directly to dry foliage.
- 2 Watering-in after application helps dispersion and boosts immediate effect.
- 3 Do not apply during drought or frosty conditions.
- 4 You should apply following completion of aeration programs, including scarification, slitting and/or hollow tining to prevent damage to the granules.
- 5 Contains iron.
- 6 Do not allow product to come into contact with marble, stone, fabric, concrete, swimming pools, etc. As product can cause discoloration, brush off immediately if spilt over concrete, paving slabs, clothes, etc.
- 7 Store under dry conditions. Properly seal partly used or damaged bags.

Recommended period of use

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC

Application rates

Recommended Rate:	Average recommended rate:
30–40g/m ²	32.5 g/m ²

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.
