

# ProSelect®

## Memorial

100% Agrostis stolonifera

## Description

For healthy, robust greens This is the perfect choice for all your greens. ProSelect Memorial turf is robust and low-maintenance, and simply great quality. Awarded top marks by NTEP, it's a creeping bentgrass with outstanding resistance to disease, in particular dollar spot and microdochium patch. Shade- and drought-tolerant too.

## Benefits

- Extremely high quality
- Easy to manage
- Outstanding resistance to disease

## How to use

- 1 For best results, seed at 6 – 7.5 gr/m<sup>2</sup>, or 0.5 – 1.25 gr/m<sup>2</sup> for inter-seeding.
- 2 Looks especially good when fertilized annually: nitrogen 10 – 20 gr/m<sup>2</sup>, phosphorous 5 – 7 gr/m<sup>2</sup> and potassium 25 – 40 gr/m<sup>2</sup>.
- 3 Performs best when kept dry and lean. We recommend a cutting height of 3 – 7 mm.
- 4 If you need more information, please contact your technical support

## Application rates

---

Average sowing rate	5 g/m <sup>2</sup>
---------------------	--------------------

Try first on a small scale before changing the rate, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

## Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
