## Description

A 100% soluble seaweed concentrate providing multiple turf benefits. It's proven to enhance color and quality, and it also feeds soil microbes, optimizing the soil to significantly improve root length and density. Our SMX technology improves nutrient uptake both in roots and in leaves. This unique formulation contains over 60% active seaweed content, harvested responsibly from premium high-density Atlantic Ascophyllum nodosum extract. Also handy for tank-mixing with other compatible products. A high-performance product to use year-round.

## Benefits

- \\ Highest active seaweed content available
- \\ Boosts turf color, quality, root growth and soil
- \\ Good for mixing with other products

## How to use

- 1 Fill your spray tank three quarters full of water; turn on agitation.
- 2 Add an appropriate tank-mix partner (see compatibility table in our brochure).
- 3 Gradually sprinkle required quantity of SeaMax directly into the spray tank to allow solubilization. Fill spray tank to required volume with agitation, and spray.
- 4 If you need more information, please contact your technical support.
