

**BIOZ<sup>®</sup>**

Topaz

 Prepare your seeds for high productivity

## Description

Bioz Topaz is a seed treatment that combines all the seed stimulation technology and knowledge in a single product.

Topaz brings you a new concept in terms of quality in seed treatment, associating agronomic efficiency with safe application. All the benefits are transferred uniformly and with perfect coverage of the seeds.

## Benefits

-  Greater efficiency in nitrogen absorption from the germination process
-  Deep root system: greater tolerance to drought and improved nutrient uptake efficiency. Also correct on the pdf enclosed.
-  Easy to use with uniform distribution over the seeds
-  Ideal pH: favouring the establishment of nitrogen-fixing bacteria

## Application rates

Crop	Dose (ml/ha)	Application method
Soybean and beans	150	Seed Treatment

## Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
