SILK

Foliar silica for healthy turf

0 | 10 | 19
N P2O5 K2O

Guaranteed analysis

Oxide		
N	Total Nitrogen	0%
P2O5	Phosphorus Pentoxide	10%
	Water soluble (P2O5)	10%
K2O	Potassium Oxide	19%
	Water Soluble (K2O)	19%

Description

This advanced foliar feed contains silicon, which has been proven to help plants use water more efficiently, and which can assist with disease management, boosting grass health all round. It also contains plenty of potassium to ensure rich color and growth. We've left out the nitrogen here, so that it's better for turf that's under pressure from disease. Use throughout the growing season to support healthy plants. Add this to your program for optimal turf management.

Benefits

- Contains silicon for better water use and healthier turf
- Ideal for disease management
- Potassium for improved growth and color

How to use

- Do not tank-mix with other nutritional products.
- If you need more information, please contact your technical support.

Recommended period of use

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC

Application rates

Recommended Rate:

10 – 20 l/ha

Trial first on a small scale before changing the rate, or any other variables. As circumstances can differ, the application of our products is beyond our control, ICL cannot be held responsible for any adverse
