

# Vitalnova®

## AminoBoost

Sail through summer stress with AminoBoost

8 | 0 | 7  
N P2O5 K2O

## Guaranteed analysis

Oxide		
N	Total Nitrogen	8%
	Urea nitrogen (N-Urea)	8.0%
P2O5	Phosphorus Pentoxide	0%
K2O	Potassium Oxide	7%
	Water Soluble (K2O)	7.0%

## Description

This is the perfect liquid foliar feed to help your turf through times of stress in the summer. Our special formulation incorporating amino acids will keep it healthy and boost its quality by making sure it's able to absorb nitrogen even in difficult conditions. Or use it in early summer to encourage growth. Plus, it's good to combine with other water-soluble or liquid products in a tank, for example PrimoMaxx®. Handy for any fine turf, sports field, or fairway, between June and September.

## Benefits

- \\ Helps grass grow faster in early summer
- \\ Maintains turf quality in stressful conditions throughout summer
- \\ Ideal in a tank mix with other products

## How to use

- 1 Apply from March to August, depending upon conditions.
- 2 Vitalnova products may be tank-mixed with other ICL products, check tank mix table for actual compatibility.
- 3 Mix with Colour Pro spray pattern indicator to assist spraying and minimize spray drift.
- 4 Best used as a foliar application with a low water volume.
- 5 If you need more information, please contact your technical support.

## Recommended period of use

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NNOV	DEC

## Application rates

### Recommended Rate:

10 l/ha

Trial first on a small scale before changing the rate, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.
