## Description

Gronamic® Allround is a highly organic mineral fertilizer – perfect for delivering sustained nutrition to sports turf and landscaped areas throughout the growing season. The key macronutrients – including carbon and nitrogen – supplied to the plant as part of the balance of mineral and organic components keep it healthy, colorful, and resilient to wear. You'll see the results within 7 days and can enjoy them for up to 8 weeks.

## Benefits

- $\mathbf{M}$  Supports plant growth through the growing season
- Sustained nutrient release
- Nupplies carbon to the soil

#### How to use

1	Apply to dry foliage from March to October.	
2	Irrigation or rainfall will assist dispersion and minimize risk of mower pick-up. Water in if no rain falls within 1-2 days after application.	
3	Avoid applying during frosty or drought conditions. Delay cutting or grooming for 2 days after application to allow the product to disperse.	
4	Contains iron. If spilt on pavement, concrete, or decorative surfaces, brush off immediately to prevent staining.	
5	Mowing height: 12 mm.	
6	If you need more information, please contact your technical support.	

### **Recommended period of use**

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NNOV	DEC

## **Application rates**

Recommended rate:

25-40 g/m2

Trial first on a small scale before changing the rate, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

### Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
