	Zinc EDTA (Zn)	0.010%

Description

If your plants are growing too fast, slow things down with Universol® Orange. Its higher potassium content makes it ideal for flowering pot plants and bedding plants. Orange can also be applied if your irrigation water contains high concentrations of nitrogen, for a more balanced fertilizer for your plants. This product contains NPK, Mg, and a full package of trace elements. And it dissolves fully before your eyes, thanks to the Bright Solution System.

Benefits

- Slows down plant growth
- Balances out high nitrogen in irrigation water
- Easy to apply, safe to use, and fast-acting

Characteristics

How to use

- 1 Can be mixed with potassium nitrate, magnesium nitrate, magnesium sulphate, phosphoric acid, nitric acid, and products from the Universol® Standard range.
- 2 Do not mix with calcium nitrate, Universol® Soft Water, Universol® Hard Water, Universol® White, Universol® Special P, or other compound water-soluble fertilizers.
- 3 Store under dry conditions.
- 4 Properly seal partly used or damaged bags.
- 5 If you need more information, please contact your technical support.

Application rates

Recommended Universol® rates	100% Universol®	50% Universol®*
Pot and bedding plants:		
Crops with high fertilizer requirements	1-2 g/l	0.5-1 g/l
Crops with normal fertilizer requirements	1-1.5 g/l	0.5-0.75 g/l
Salt sensitive crops	0.5-1 g/l	Depends on situation
Container nursery stock:		
Crops with high fertilizer requirements	20 g/m2/week	10 g/m2/week
Crops with normal fertilizer requirements	15 g/m2/week	7.5 g/m2/week
Salt sensitive crops	10 g/m2/week	5 g/m2/week

*When combined with 50% Osmocote® Exact **Attention** Trial first on a small scale before changing the rate, application or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Store under dry conditions. Close partly used or damaged bags securely. For best results, always ask your ICL advisor.
