## Guaranteed analysis

Oxide		
N	Total Nitrogen	20%
	Ammoniacal nitrogen (N-NH4)	4.4%
	Urea nitrogen (N-Urea)	15.2%
P2O5	Phosphorus Pentoxide	20%
	Water soluble (P2O5)	15.0%
K2O	Potassium Oxide	8%
	Water Soluble (K2O)	8.0%

## Description

Breathe life into your new turf or young seedlings with Sierrablen® Renovator 3M mineral fertilizer. Made up of mini granules, use this specially formulated NPK fertilizer to lay new turf or to overseed with enhanced even distribution. Treat your turf to a steady 3-month controlled nitrogen release thanks to ICL's patented Poly-S coating technology and swap those grass burning symptoms for perfect lush green swards. Under the surface, your turfgrass will establish stronger roots thanks to its boosted phosphate intake.

## Benefits

- \\ Ideal for laying new turf or overseeding
- \\ Fast-establishing with a dense sward
- \\ Minimizes risk of burning young grass

## How to use

- 1 Apply directly to dry foliage. Watering-in helps dispersion and boosts immediate effect.
- 2 Do not apply during drought or frosty conditions.
- 3 You should apply following completion of aeration programs, including scarification, slitting and/or hollow tining to prevent damage to the granules.
- 4 Contains iron.
- 5 Do not allow product to come into contact with marble, stone, fabric, concrete, swimming pools, etc. As product can cause discoloration, brush off immediately if spilt over concrete, paving slabs, clothes, etc.
- 6 Store under dry conditions. Make sure you properly seal partly used or damaged bags.

## Application rates

Average Recommended Rate:	30.00 g/m <sup>2</sup>
Recommended Rate:	25.00 – 35.00 g/m <sup>2</sup>

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

## Attention
