

# Greenmaster® Pro-Lite®

NK

A professional solution with balanced N and K

12 | 0 | 12 | 3 | 2  
N P<sub>2</sub>O<sub>5</sub> K<sub>2</sub>O MgO Fe

## Guaranteed analysis

Oxide		
N	Total Nitrogen	12%
	Ammoniacal nitrogen (N-NH <sub>4</sub> )	4.1%
	Urea nitrogen (N-Urea)	7.9%
P <sub>2</sub> O <sub>5</sub>	Phosphorus Pentoxide	0%
K <sub>2</sub> O	Potassium Oxide	12%
	Water Soluble (K <sub>2</sub> O)	12.0%
MgO	Magnesium Oxide	3.0%
Fe	Iron	2.00%

## Description

Greenmaster® Pro-Lite NK is the fertilizer of choice from spring and to late summer for a balanced nitrogen and potassium feed. It will encourage shoot growth and turf recovery. Added iron and magnesium content promotes growth and a superb color in lighter soils.

## Benefits

- \\ Popular balanced N:K analysis for in-season growth
- \\ High nitrogen for good top growth and potassium to cope with stress
- \\ Zero P analysis where P supply is already sufficient

## How to use

- 1 Apply from April to September.
- 2 Apply to dry foliage and irrigate after 1-2 days if no rain has fallen.
- 3 Irrigation will aid dispersion and minimize any risk of mower pick-up on close-mown surfaces.
- 4 Avoid applying in frosty conditions or drought.
- 5 Delay verti-cutting and/or grooming for 3 days after application to allow the granules to disperse.
- 6 Do not apply if there is a risk of contact with concrete, marble, stone, fabric, etc.
- 7 If you need more information, please contact your technical support.

## Application rates

### Recommended rate:

---

30-35 g/m<sup>2</sup>

Trial first on a small scale before changing the rate, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

## Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
