Guaranteed analysis

Oxide		
N	Total Nitrogen	20%
	Ammoniacal nitrogen (N-NH ₄)	1.4%
	Urea nitrogen (N-Urea)	18.2%
P ₂ O ₅	Phosphorus Pentoxide	6%
	Water soluble (P ₂ O ₅)	5.8%
K ₂ O	Potassium Oxide	10%
	Water Soluble (K ₂ O)	10.0%
CaO	Calcium Oxide	6%
	Water soluble (CaO)	5.0%
MgO	Magnesium Oxide	2.0%
	Water soluble (MgO)	2.0%

Description

A fertilizer high in nitrogen to get your turf off to a great start to the growing season. This balance of nitrogen, phosphorus, and potassium will be just what you need for steady, healthy growth, even if spring isn't the warmest. Plus, it has added magnesium for great color and masking signs of stress and calcium for improved wear and tear. Partially coated granules for a controlled release over 2 – 3 months, as well as an immediate helping of nutrients to help your grass react straightaway.

Benefits

- \\ A great first fertilizer in the season for controlled release of nutrients
- \\ Sparks healthy, steady growth, good color, and wear-resistance
- \\ Designed to provoke a quick response in cooler weather

How to use

- 1 Apply to dry foliage. Watering-in after application will help with granule dispersion, give a quicker initial effect, and minimize footprint trails.
- 2 We recommend applying after aeration programs such as hollow tining, slitting, and/or scarification to prevent granule damage. Do not apply during frosty or drought conditions.
- 3 If spilled on pavement, concrete, clothes, etc. brush off immediately as it can stain.
- 4 If you need more information, please contact your technical support.

Application rates

Recommended Rate:

20 – 25 g/m²

Trial first on a small scale before changing the rate, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
