Oxide		
N	Total Nitrogen	6%
	Ammoniacal nitrogen (N-NH4)	1.8%
	Ureaformaldehyde (N-MU)	4.2%
P2O5	Phosphorus Pentoxide	5%
	Water soluble (P2O5)	4.0%
K2O	Potassium Oxide	11%
	Water Soluble (K2O)	11.0%
MgO	Magnesium Oxide	3.0%
Fe	Iron	0.50%

Description

Greenmaster® Pro-Lite Autumn Mg will work from spring to autumn supplying N,P,K and Mg for your turf sward. It's a great all round product for healthy turf!

Benefits

- \\ High K ratio for late season application
- \\ Added Mg for improved turf color
- \\ High quality formulation for reliable release patterns

How to use

- 1 Apply to dry foliage from September to March. Irrigate after 1 - 2 days if no rain has fallen to aid with dispersion and minimize any risk of lawnmower pick-up on close cut surfaces.
- 2 Avoid applications during frosty or drought conditions. Watering-in after application will minimize the visibility of footprints. If spilt on pavement, concrete, clothes, etc. brush off immediately as the product can cause discoloration.
- 3 Delay vertical cutting and grooming for 3 days after application to allow the granules to properly disperse.
- 4 If you need more information, please contact your technical support.

Application rates

Recommended rate:	Average recommended rate:
30-35 g/m ²	32.5 g/m ²

Trial first on a small scale before changing the rate, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results
