### Description

For those times when your fruit, vegetable, and arable crops crave that high-potassium, low-phosphorus NPK boost, choose Agrolution<sup>®</sup> Special 316 fertigation fertilizer. This water-soluble application is designed to enhance your plants' nutrient availability and uptake. With its high purity, solubility, and acidifying effect, you can easily prevent deposits and blockages within your irrigation systems. Protect your plants against diseases like blossom end rot thanks to its added calcium, which also serves to prolong the product's overall shelf life.

### Benefits

- \\ Made from pure, raw materials
- \\ Comes with trace element package
- \\ Added magnesium for enhanced photosynthesis and plant energy

## How to use

- 1 The Agrolution® range offers a wide range of analyses covering all crop growth stages while providing tailored assistance to specific soil and water types.
- 2 Store under dry conditions.
- 3 Properly seal partly used or damaged bags.
